DO YOU EVER INVESTIGATE OUR ADVERTISEMENTS?

During the last few days a number of customers told the writer that they read our every advertisement and while they thought they were convincing, they all along thought the values were just newspaper talk. Slowly they found out from their friends that we do certainly give splendld values. So they thought, just out of curiosity, they would walk in and look around and see what they could see. NOW they believe every word of our advertisements and are sorry that they never came to the store before. So if you are one of the shoppers who read our ads and don't come in to see our merchandise take the trouble to investigate.

Aemains of Former Local Physician Interred in Mountain Grove Cemetery.

The remains of Dr. Hugh J. De Ver of Waterbury, formerly a practitioned of this city, were brought to this city this afternoon on the 3:55 train, being corted by a delegation of the Knights Pythias and Masons of Waterbury. The funeral cortege proceeded to

ountein Grove cemetery where the nains were interred.

Or. De Ver died Friday morning m pneumonia after an illness of ree days. He is survived by his dow, Mrs. Elizabeth Orr De Ver, ughter of Charles S. Orr, of Holland lights

daughter of Charles S. Orr, of Holland Heights.

Dr. De Ver was born in Kent, England, in 1852. He was a graduate of Lismarie school and was given his M. D. at Trinity college, Dublin, Ireland. He served eight years in the British navy as surgeon and saw service in India, Africa and Australia. After leaving the service he was employed as a surgeon on the Inman line of ocean steamships.

He came to this city about eighteen year ago, opening offices in Laubscher's block in Clarence street. He soon became interested in the organization of the Hibernian Rifles and was its staff officer and surgeon. Dr. De Ver married Miss Elizabeth Orr about twelve years ago, the death of his first wife having occurred some time previously in this city. Shortly after his second marriage he went to Waterbury where he built up a lucrative practica. He was popular socially, and his reminiscences of his extensive travels and unusual experiences delighting many gatherings. The deceased was a member of Harmony lodge, Knights of Pythias, both of Waterbury. He was surgeon general with the, rank of colonel in the Uniformed Rank, Knights of geon general with the rank of colonel in the Uniformed Rank, Knights of Pythias. IS SALVATION OF THE FALLS

Niagara Falls, April 12.—Engineers to-day believe the only salvation of the lower end of the Niagara river, where mountains of ice have clogged the stream for five days, causing a rise in the water of forty feet and entailing damage to property at present esti-mated at \$1,000,000, is the gradual meltroadbed further undermined. It has been suggested by some of the en-gineers that several thousand tons or clearing out the river where it empties into the lake with one explosion and then working upward destroying a small portion of the ice floe at a time. In this manner the entire ice body would be separated. would be removed.

FAIRFIELD AWAITS GRACE CHILD'S

All Fairfield is deeply interested in the approaching marriage of Miss Grace Child, daughter of the Rev Frank Samuel Child of Fairfield, to Alder Ellis, of Chicago. Despite the announcement from England that the landing of marines from the British cruiser Fox at Bushiere on the Persian Gulf is but a temporary measure to guard the foreign residents there during the rebel uprising, the opinion is general here that the act is but a preliminary stop to the permanent occupation of the southern part of Persia by England and the forerunner of Russla's long threatened invasion of the northern part.

The Concerting. The threatened revival of the concertina as a serious musical instrument in England would be a return to an old fashion no doubt, but not to a very old one, since the concertina dates from the early part of the last century. Its invention was an early indiscretion of Sir Charles Wheatstone of telegraph fame, who took out a patent for it in 1829, the very year in which somebody in Vienna invented that similar instrument, the accordion. The concertina was popularized by Sig. Regondi, who had come before the public as a juvenile prodigy with the guitar. At one time no London concert was really complete without him and his concertina, and he astounded the Germans with the music he could get out of it.
